

## ABOUT

**CoastBio** designs and produces advanced ecological solutions for agriculture, grounds maintenance, and environmental management. Our tailored services include the formulation of custom blends of fertilizers, planting media, and soil amendments, utilizing natural and organic components. We focus on enhancing soil health and ecosystem resilience through products enriched with mycorrhizal fungi and beneficial bacteria. Our expertise extends to optimizing organic waste composting processes and reducing sludge, fats, oils, grease, and odors in wastewater treatment, thereby improving operational efficiency and environmental sustainability.

## PAST PERFORMANCE

- **Rocky Mountain Reclamation**  
Laramie, WY  
Valeria Parrish  
307-745-5235
- **Marion Ag Services**  
St. Paul Oregon  
Hayden Hocket  
(503)-989-0155

## DIFFERENTIATORS

- **Personalized Services**
- **Ecological Products**
- **Custom Solutions**
- **Organic Products**

## CORE COMPETENCIES

### Agriculture

- Custom Fertilizer Blending
- Soil amendments containing mycorrhizal fungi, streptomyces, trichoderma and bacillus species
- Granular and water-soluble amendments
- 20lb to 2000lb unit sizes
- Fertilizer + Mycorrhiza transplant pods
- Products for: root growth, soil structure, salinity and drought tolerance, foliar sprays, fertigation

### Forest/Range

- Custom Blending - planting media, soil amendments
- Seed coating
- Endo & Ecto Mycorrhizae products
- Granular/water soluble/ planting pods

### Environmental/Remediation

- Water soluble biological remediation products
- Products for soil: salinity, heavy metals, erosion, oil spills, water holding ability, soil ecology, nutrient uptake, phosphorus solubilization
- Products for water: treats FOG, sludge, H<sub>2</sub>S, excess nitrogen and phosphates
